

Pet Insurance

A healthy, happy pet for life.

Sayers Animal Hospital is committed to reducing the amount of undue stress on you and your pets, which is why it's important that you have a plan for the expenses related to veterinary care. For many pet parents, pet insurance may be the best option.

That's why we were so delighted to find Companion Protect, a pet insurance company that, like us, has set out to provide a better experience for pet parents and the animals they love.

We've partnered with Companion Protect because they have solutions for many of the problems associated with typical pet insurance providers. For more than two years, they've delivered on their commitment to clients and helped countless pets get the care they need at a fraction of the cost.

Plus, by enrolling your pet, you can take advantage of exclusive benefits through our participation in their Vetnetwork, including:

- Free annual wellness exams (two when your pet reaches 7 years of age)
- Lower copay and deductible
- Direct-to-vet payment for balance due after copay and deductible

The unexpected can happen at any time. Don't get caught without a plan:
